

# SALES-TALK

## A FULLY ACCESSIBLE POINT-OF-SALE SYSTEM FOR BLIND VENDORS

### What is Sales-Talk?

Sales-Talk is a proven commercial point-of-sale system that's been significantly enhanced and fully speech enabled to support the needs of blind vendors and employees. Sales-Talk lets you independently perform all sales tasks without the assistance of sighted personnel, including:

- checking out customer items quickly and efficiently;
- verifying each item as it's checked out;
- correcting and reversing incorrect transactions;
- processing credit card transactions;
- issuing payment receipts;
- reviewing historical transactions;
- entering and updating your inventory;
- and,
- generating sales reports.

### What's the Sales-Talk Value Proposition?

Sales-Talk gives you greater control over your business. With Sales-Talk, blind vendors can manage all aspects of a 21st century retail operation. Sales-Talk lets you independently handle the cash register at your location. With Sales-Talk, you don't need anyone's assistance to check your customers out which means reduced labor and overhead costs.

### What's included in Sales-Talk?

Sales-Talk is a complete, high-quality point-of-sale solution. It includes the POS system, an automated cash drawer, a bar code scanner, a magnetic strip reader for credit and debit cards, a receipt printer, and a display (for sighted users). Many options are available, including power backup units, custom stands, and handheld systems for inventory counting and stock taking. We also offer training and support service packages.
