

TextTalk

Compusult Limited
Assistive Technology
www.hear-it.com

- ***Provides speech output of typed text, documents, and databases.***
- ***Uses state-of-the-art speech synthesis for high-quality output.***

TextTalk reads and speaks the contents of the following file types:

- Text (ASCII)
- Microsoft Word & WordPerfect
- Hypertext Markup Language (HTML)
- Portable Document Format (PDF)
- ODBC-compliant Databases

TextTalk also speaks text as you type it, sentence-by-sentence, word-by-word or character-by-character, including punctuation, using a very high-quality software-based speech synthesizer.

Speech output of documents, data, and text.

System Requirements

TextTalk will run on computer systems with the following minimum configuration:

- Windows 95, 98, ME, 2000 or NT
- 120 MHz Intel or equivalent CPU
- 32 MB of available RAM
- 315 MB of free hard disk space
- CD-ROM drive

WorkCam

Electronic magnifier for the workplace.

- ***High-resolution, high-magnification display.***
- ***Increases safety and independence for visually impaired employees.***

WorkCam provides optical and digital magnification of equipment and materials so that visually impaired persons can independently, safely and efficiently perform hands-on work with small scale components.

WorkCam employs a digital camera mounted on a flexible or articulating arm that is connected to a video monitor or computer system to provide a live, high-resolution, high-magnification display.

WorkCam is available with color or monochrome video output and various mounting, magnification and other options to meet your specific workplace needs.

Automatic digital camera zoom, focus and iris controls are also available upon request.

From data warehousing and systems integration to assistive technology, Compusult Limited is a world leader in information management, software development and consulting.
